

# We Understand Your Need For Quality!

At Wave Guide™ Technologies, our mission is to provide you with the highest quality products on the market. All Wave Guide™ Power Screens are custom manufactured and installed by trained and experienced professionals. Our Patent Pending Screen Retention System keeps the screen mesh from blowing out during windy conditions. We use only the highest grade aluminum and nylon components and our Powder Coated finish will stand up to the toughest elements and environments. The attractive and comprehensive range of colors, finishes, and surface effects offer our customers the largest ranges of options in the industry. Our high quality tubular motors are UL approved, quiet and efficient, and work on 120V electricity. Most important to you, all Wave Guide™ Power Screens comes with a limited lifetime warranty.

Whether you are planning to convert your garage to a workshop, enclose your patio or lanai, the Wave Guide™ Power Screen offers you complete versatility at the touch of a button. With Wave Guide™ Technologies Power Screens, Life just got a little better!

## Motorized Power Screens

Beauty, Elegance  
& Versatility  
in the Palm of Your Hand.

# Transform Your Space...

Enjoy the beauty and comfort of your patio, deck, lanai or veranda without the hassle or worry of unwanted pests, and protection from the harmful U.V. rays of the sun. At the press of a button, Wave Guide™ Power Screens smoothly and silently glides down into place transforming your patio into a fresh, ventilated, pest-free environment allowing you and your family to completely enjoy all of the amenities of your beautiful home day and night. When not in use, at the press of a button, the screen retracts out-of-sight, maintaining your home's beauty by stylishly blending with the exterior of your home.

Wave Guide™ Power Screens is a great way to add to both your home's aesthetic appeal and equity. The Wave Guide™ Power Screen is custom manufactured to fit most standard and oversized applications. Why waste another day sitting inside your home when you could be outside enjoying the beauty of your patio, porch or lanai.

## Screen Mesh Types:

Wave Guide™ Power Screens offer a variety of screening and shading options to enhance your home's unique features and suit your needs.

Super Screen Insect Mesh: reduces up to 35% of U.V. rays and is tear and puncture resistant.

Solar Screen Mesh: Blocks out 85% of the sun's heat, glare and U.V. rays, which can reduce solar heat gain by up to 70% and lower the inside temperature by up to 15 degrees.

Privacy Material:

A complete block-out material that provides up to 100% blockage of U.V. rays. Ideal for home theatre rooms.

Use the Wave Guide™ Power Screens on:

- Patios
- Lanais
- Balconies
- Verandas
- Cabanas
- Garage Doors
- Decks
- Windows
- Roman Archways

## Super Screen Technology

- Puncture Resistant
- Tear Resistant
- Mildew Resistant
- Fire Retardant
- 5 times stronger than traditional fiberglass mesh!
- 10 Year Warranty!
